

OUR OBJECTIVES ARE:

Cable Span Australia operates in diverse ecosystems and environments and is dedicated to environmental sustainability and believes that a successful future for our business and the customers we serve depends on the sustainability of the environment, communities and economies in which we operate.

As a responsible corporate citizen, we bear the responsibility to consider the impacts of our actions and how they affect the environment both directly in terms of our own operations, and indirectly through our purchasing decisions, the products and services we offer to our customers and the business opportunities we pursue.

We are committed to minimizing the impact of our operations on the environment and to demonstrating leadership by integrating environmental considerations into all our practices.

WE WILL ACHIEVE THIS BY:

- Identify activities that impact on the environment and attempt to eliminate or reduce the impact;
- Comply with all regulatory requirements relating to our products and processes;
- Embrace environmentally friendly production techniques and equipment;
- Continually monitor and review the impacts of our activities; and
- Develop a close relationship with Government Departments and Community groups to protect and improve estuarine health.
